Ms. Carol Connell Agency for Toxic Substances Disease Registry Executive Park, Building 33 1600 Clifton Road, E-56 Atlanta, Georgia 30333

Dear Ms. Connell:

MAYWOOD SITE -- BASELINE RISK ASSESSMENT - TRANSMITTAL OF ERRATA SHEET

The purpose of this letter is to provide to you a copy of the errata sheet for the final Baseline Risk Assessment for the Maywood site. This errata sheet identifies and corrects an error that was uncovered in the Baseline Risk Assessment after it had been placed in the administrative record file in April 1993. The error occurred when the actual gamma radiation measurements taken indoors at Maywood property unit 7H were entered into the database as outdoor measurements, and vice-versa. This resulted in an overestimation of the risk present at this property unit, as reported in the final Baseline Risk Assessment.

The errata sheet has been reviewed and approved by EPA Region II, and is now an integral part of the final Baseline Risk Assessment. It will be issued with all future copies of the final Baseline Risk Assessment.

If you have any questions, please call me at (615) 576-5724.

Sincerely,

A.M. Cange

Susan M. Cange, Site Manager Former Sites Restoration Division

Maywood Baseline Risk Assessment Correction to Final Document

Actual gamma radiation measurements taken indoors at Maywood Property Unit 7H were entered into the database as outdoor data, and vice-versa. This resulted in an overestimation of the risk present at Property Unit 7H, due to the differences in exposure assumptions. The actual interior readings for this property unit range from 8 to 13 μ R/hr and the exterior readings range from 10 to 146 μ R/hr.

Based on this correction, the following changes are required to the Maywood Baseline Risk Assessment:

- p. 3-44, Table 3-6, "Total Exposure Dose Summary": Under the Current Use Scenario, change the Unit 7H Employee mean to 67 (from 141); change the RME to 117 (from 281). Under the Future Use Scenario, change the Unit 7H Resident mean to 240 (from 499); change the RME to 341 (from 859).
- p. 3-60, Figure 3-10, "Annual Radiological Exposure in the Current Use Scenario (Mean)": Change the 7H exposure range to 25 to 100 mrem/yr (from 100 500 mrem/yr).
- p. 3-63, Figure 3-11a, "Annual Radiological Exposure in the Future Use Scenario (RME)": Change the 7H Exposure Range to 100-500 mrem/yr (from > 500mrem/yr).
- p. 5-5, Figure 5-1, "Excess Radiological Cancer Risk for the Current Use Scenario (Mean)": Change the risk range designation for Property Unit 7H to 10⁴ (from 10³).
- p. 5-9, Section 5.2.1.1, paragraph 3: Change the second sentence to read: "RME risks range from 3 x 10⁻³ to 2 x 10⁻⁴." Change the third sentence to read: "The employees at Property Unit 7H (Sears/Desaussure) are estimated to receive an excess carcinogenic risk of 3 x 10⁻⁴ and 2 x 10⁻³ for the mean and RME conditions, respectively."
- p. 5-10, Table 5-1, "Radiological Risk Summary": Change the Property Unit 7H Current Use Scenario for the Employee to 3 x 10⁻⁴ amd 2 x 10⁻³ for the mean and RME conditions, respectively (from 6 x 10⁻⁴ and 4 x 10⁻³, respectively). Under the Future Use Scenario for the Resident, change to 1 x 10⁻³ and 6 x 10⁻³ for the mean and RME conditions, respectively (from 3 x 10⁻³ and 2 x 10⁻², respectively)
- p. 5-11, Section 5.2.1.2, paragraph 1: Change the third sentence to read "Maximum estimated risks are for the future residents at Property Unit 6B, which exceeds 5 x 10²."
- p. C-2, Table C-1, "Estimated Exposure Dosage Current Employee": For Property Unit 7H, change the direct radiation mean to 34 (from 108), and RME to 66 (from 230). Change the total dose mean to 66.8 (from 140.8), and RME to 116.86 (from 280.86).

- p. C-8, Table C-7, "Estimated Exposure Dosage Future Resident (Child)": For Property Unit 7H, change the direct radiation mean to 32 (from 351), and RME to 49 (from 748). Change the total dose mean to 239.8 (from 558.8) and RME to 350.6 (from 1049.6).
- p. C-9, Table C-8, "Estimated Exposure Dosage Future Resident (Adult)": For Property Unit 7H, change the direct radiation mean to 32 (from 351), and RME to 49 (from 748). Change the total dose mean to 59.89 (from 378.89), and RME to 111.73 (from 810.73).
- p. C-10, Table C-9, "Estimated Exposure Dosage Future Resident (Adult and Child)": For Property Unit 7H, change direction radiation for the mean to 32 (from 351), and RME to 49 (from 748). Change total dose mean to 240.23 (from 498.89), and RME to 341.09 (from 858.51).
- p. D-9, Table D-7, "Actual Measured Data for the Maywood Site": For Property Unit 7H, beginning with indoor gamma, change the numbers in the row to 2 (from 4), 4 (from 61), 5 (from 130), and 5 (from 140). For outdoor gamma, change the numbers to 4 (from 2), 61 (from 4), 130 (from 5), and 140 (from 5).
- p. D-10, Table D-8, "Radiological Dose from Actual Measured Values": For Property Unit 7H, change the numbers in the first four columns for direct gamma to 34 (from 108), 66 (from 230), 32 (from 351), and 49 (from 748).
- p. G-2, Table G-1, "Slope Factor Risk Current Employee": For Property Unit 7H, change the direct radiation mean to 9E-05 (from 3E-04), and RME to 6E-04 (from 2E-03). For total without radon, change the mean to 9E-05 (from 3E-04), and RME to 7E-04 (from 2E-03). For total dose, change the mean to 2E-04 (from 3E-04), and RME to 8E-04 (from 2E-03).
- p. G-8, Table G-7, "Slope Factor Risk Future Resident (Child)": For Property Unit 7H, change the direct radiation mean to 7E-05 (from 7E-04), and RME to 1E-04 from (2E-03). For total without radon, change the mean to 9E-05 (from 7E-04), and RME to 1E-04 (from 2E-03). For total dose, change the mean to 6E-04 (from 1E-03), and RME to 8E-04 (from 3E-03).
- p. G-9, Table G-8, "Slope Factor Risk Future Resident (Adult)": For Property Unit 7H, change the direct radiation mean to 1E-04 (from 1E-03), and RME to 6E-04 (from 8E-03). For total without radon, change the mean to 1E-04 (from 1E-03), and RME to 7E-04 (from 9E-03). For total dose, change the mean to 6E-04 (from 2E-03), and RME to 1E-03 (from 9E-03).

- p. G-10, Table G-9, "Slope Factor Risk Future Resident (Adult and Child)": For Property Unit 7H, change the direct radiation mean to 9E-05 (from 1E-03), and RME to 5E-04 (from 7E-03). Change the total without radon mean to 1E-04 (from 1E-03), and RME to 6E-04 (from 7E-03). Change the total dose mean to 6E-04 (from 1E-03), and RME to 1E-03 (from 8E-03).
- p. G-12, Table G-11, "Dose Factor vs. Slope Factor Risk Comparison": For Property Unit 7H, under the current use scenario, change the employee risk mean to 0.8 (from 1.7), and RME to 0.9 (from 2.1). For the future use scenario, change the resident risk mean to 0.9 (from 1.8), and the RME to 0.8 (from 1.9)

Note: Amended tables are attached.
