Project: Wayne and Maywood Phase IA Cultural & Archaeological Study

Prepared by: Heather M. Cothron

Date: _____

Made Call to: Contact: Jonathan Gell
 Received Call from: Affiliation: New Jersey State Historic Preservation Office
 Meeting Held with: Phone: (609) 292-2023
 Date: 6/14/94

Discussion:

Craig Woodman had called to inform me that Jonathan Gell, NJ SHPO had not seen the Maywood Phase IA Archaeological and Historic Study sent to him on April 21, 1994 (Comments were requested back by May 16, 1994). I called Jonathan Gell to offer to send another copy. He indicated they would continue to look for the document and call me back by the end of the day. He returned the call a few minutes later saying he had found the document.

Mr. Gell & I discussed the impacts of the cultural resources on remedial actions. Mr. Gell contended cultural resources have no impact on remedial actions regardless of the findings... that health & safety always dictate the actions during remediation. I tried to question him concerning mitigative measures and how these would be decided (ie: architectural drawings, photographs, HAER report etc). Mr. Gell was evasive and kept insisting his review or comments would not affect the FS or PP.

Mr. Gell indicated he had received the Wayne Phase IA Study, had reviewed it and filed it away. When questioned - he indicated he would send comments. He also will review the Maywood Phase IA report. However when asked for a timeframe, he refused to give a schedule

Action Items: indicating that after 2 months I shouldn't expect a timeframe. We should let him know when it gets "hot" for us.

Person Responsible	Required Action	Date Required
<u>Craig Woodman</u>	<u>Call Jonathan Gell - need to push Gell for review saying EPA won't approve without buyin from the State (Don't mention EPA comments, specifically on Phase IA report)</u>	<u>Immediately - make phone call ASAP</u>
