Oak Ridge Operations Office
P.O. Box 2001
Oak Ridge, Tennessee 37831—

FEB 06 1997

Dear Cooperative Guidance Group Member:

MAYWOOD SITE - SERVICE ON THE COOPERATIVE GUIDANCE GROUP

Public involvement in decisions made by the Department of Energy has never been more important than it is today. In communities where the Department is undertaking environmental cleanups, the people who live and work locally do their neighbors a great service by becoming directly involved and intimately knowledgeable of the work so that decisions affecting the community incorporate the views of the local public.

I and the Department as a whole want to express sincere appreciation for your willingness to serve on the newly formed Maywood site Cooperative Guidance Group. As a member of the group, not only will you play a role on a local board providing the Department valuable input about our work in your community, you will also be part of the nationally chartered Environmental Management Site Specific Advisory Board. To date, more than 20 groups such as the one on which you have volunteered to serve are already functioning in different parts of the country helping the Department chart its course in the various affected local communities.

In the coming months, as work on current cleanup activities at the Maywood site continues and as the Department moves toward a sitewide remedy, your role will become increasingly important. Your work on the Cooperative Guidance Group can be highly effective. It can make a difference. I and the Department recognize that your willingness to serve on the group is a testament to your community pride and concern. We need your local knowledge, welcome your community insight, and truly value your input.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. Cange".

Susan M. Cange, Site Manager
Former Sites Restoration Division
