Dear Susan:

Request for Maywood Documents from the Agency for Toxic Substances and Disease Registry

Under authority of EM-43, the Center for Risk Management has been facilitating the request for documentation of DOE facility activities by Agency for Toxic Substance and Disease Registry (ATSDR) personnel conducting health-related activities under Interagency Agreement No. DE-AI01-EW40410. ATSDR is conducting a Health Consultation at the Maywood Interim Storage Site to address contamination in residential soils. A request has been made for 48 documents from the Maywood Administrative Record. A list of these documents is attached. The Administrative Record was carefully reviewed and these documents are deemed necessary for ATSDR to conduct their work. In addition, ATSDR would like an update or addendum to the administrative record index which includes a listing of documents from March 1994 to the present.

As you are currently on detail, I've been working with Dave Adler to address this request. I have spoken with Sakina Clyburn of the Maywood Information Resource Center and then with Wayne Scarbrough of Bechtel in Oak Ridge. Wayne is requesting the documents be copied in stages and will forward the reproductions to me for delivery and tracking. I will keep you informed of our progress.

Sincerely,

Susan Yurasevecz
