**Department of Energy**

Oak Ridge Field Office  
P.O. Box 2001  
Oak Ridge, Tennessee 37831—

**JUL 22 1993**

Dear Resident:

**MAYWOOD SITE - AVAILABILITY OF 1992 SITE ENVIRONMENTAL REPORT**

I would like to inform you that the 1992 site environmental surveillance report for the Maywood site, located in Maywood, New Jersey, has been published and is now available. This site is managed by the U.S. Department of Energy (DOE) for the temporary storage of radioactively contaminated soils.

In the past, DOE has distributed copies of this report (approximately 150 pages) to a large number of area residents. As a conservation effort, I am only transmitting summary information about the surveillance program. Results from this year's environmental surveillance efforts are discussed in the enclosed fact sheet. The full report has been sent to all county, state, and federal agencies overseeing the site. Copies of the report are also available to you upon request.

For a copy of the report or for more information on the Maywood site environmental surveillance program, call or visit the DOE Public Information Center at 43 West Pleasant Avenue (201-843-7466). You may also call DOE's toll-free access number, 1-800-253-9759, and leave a message. Someone will return your call promptly.

Please feel free to contact me through the information center with any questions that you might have on either the surveillance program or any other aspect of DOE's environmental restoration activities in Maywood. I am always available to meet with residents individually or in groups.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. Cange".

Susan M. Cange, Site Manager  
Former Sites Restoration Program
