March 21, 1996

Mr. Oldrich Balvin
79 Avenue B
Lodi, New Jersey 07644

Dear Mr. Balvin:

MAYWOOD SITE - VERIFICATION THAT CLEANUP IS COMPLETE AT YOUR PROPERTY

I know it has been a long time coming for you, and that is why I'm pleased to be able to write this letter stating that the cleanup of your property has been verified to be complete by an independent verification contractor. According to the cleanup criteria we must follow, your property is free for use with no radiological restrictions.

As you will see in the enclosed documents, Oak Ridge National Laboratory performed the independent survey. Laboratory representatives performed radiological surveys using hand-held instruments and tested samples of soil collected from your property after the cleanup to ensure that the work we did last fall was thorough. You will eventually receive a formal certification statement from Department of Energy (DOE) Headquarters relating to the completed cleanup.

As I said, I know that the process has been a long one, and we all appreciate your patience and cooperation throughout. Please feel free to call me if you have any questions regarding the cleanup on your property. My number in Oak Ridge, Tennessee, is (423) 576-5724. Or call Stuart Price at our local information office at 843-7466.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan M. Cange".

Susan M. Cange, Site Manager
